

Wall cabinets with lots of storage space at your fingertips. Fold-lift and softlift doors give you even more freedom of movement because the doors fold up, out of the way. And again, ALNO has a lot of good ideas to offer such as the Magic Corner, a corner carousel in the wall cabinet or the dish drying cabinet in which you can let your just washed plates and cups drip dry all by themselves. If desired, the wall cabinets can be equipped with illuminated shelves to light up your work area – an »all inclusive kitchen cabinet«, so to speak.
